## About Us

Since 1972, we, Chromatography And Instrument Co. Pvt. Ltd., have been the prime choice of a large clientele to avail Zero Air Gas Generators, Hydrogen Oxygen Nitrogen Combined Determinators, Trace Gas Analyzers, Transformer Monitoring Systems, and other products. We are an ISO 9001:2015-certified company, serving the business roles of a manufacturer and supplier. All our products are precisely developed at our in-house, well-engineered manufacturing unit. Each product complies with industrial norms. Hence, we take immense pride in stating that we are the only Indian vendor-approved for OLGS systems for NPCL plants with systems conforming to international specifications (ISO 61000; ISO 9000). Moreover, we are also the first and only company in India to manufacture Online Gas Chromatograph.

We promise to keep up with the highest standards of quality and reliability across both our products and services in the future as well. Achieving 100% customer satisfaction is our primary objective, and we would not mind going the extra mile to make our customers happy and reach new heights of success.
